Land, Politics, and Expansion in the Early Republic

California Education and the Environment Initiative

Approved by the California State Board of Education, 2010

The Education and the Environment Curriculum is a cooperative endeavor of the following entities:

California Environmental Protection Agency

California Natural Resources Agency

Office of the Secretary of Education

California State Board of Education

California Department of Education

California Integrated Waste Management Board

Key Leadership for the Education and Environment Initiative:

Linda Adams, Secretary, California Environmental Protection Agency

Patty Zwarts, Deputy Secretary for Policy and Legislation, California Environmental Protection Agency

Andrea Lewis, Assistant Secretary for Education and Quality Programs, California Environmental Protection Agency

Mark Leary, Executive Director, California Integrated Waste Management Board

Mindy Fox, Director, Office of Education and the Environment, California Integrated Waste Management Board

Key Partners:

Special thanks to **Heal the Bay**, sponsor of the EEI law, for their partnership and participation in reviewing portions of the EEI curriculum.

Valuable assistance with maps, photos, videos and design was provided by the **National Geographic Society** under a contract with the State of California.

Office of Education and the Environment

How Expansion Changed the Land in the Ohio River Valley	17
---	----

Key Unit Vocabulary

Lesson 1

Cede: To give up something, especially title or ownership of land.

Civic virtue: Having behaviors and beliefs that put the public interest ahead of one's own interests.

Conservation easement: A legal agreement between a landowner and government to permanently set aside natural resources on private property.

Deforestation: Clearing an area of trees.

Ecosystem goods: Tangible materials, such as timber and food, produced by natural systems, that are essential to human life, economies, and cultures.

Ecosystem services: The functions and processes that occur in natural systems, such as pollination, that support or produce ecosystem goods and help sustain human life, economies, and cultures.

Expansion: Increasing the size of something.

Habitat: The place where an organism lives and meets its needs.

Incentive: Something that motivates or inspires someone to take a certain action.

Land speculator: Someone who buys land solely for the purpose of making a profit.

Law: A rule of conduct made and enforced through formal legislation by a body of government.

Monoculture: The practice of planting a single crop.

Natural resources: Materials such as soil, water, minerals, and energy that people use from nature and natural systems.

Natural system: The interacting components, processes, and cycles within an environment, as well as the interactions among organisms and their environment.

Ordinance: A law or regulation of a governmental body.

Policy: A broad statement that defines how groups or organizations implement their goals and objectives.

Profit: The amount of money or goods remaining after all costs of a transaction are deducted.

Riparian: Related to or situated on or near the banks of rivers and streams.

Subsistence farming: Farming practices that produce only enough crops and livestock to feed farmers and their families.

Surplus: The quantity of goods or services above the quantity needed to meet one's own needs.

Surveyor: A person who measures and maps the land.

Name: _____

Part 1

Instructions: Read *California Connections: Habitat for Humans and Wildlife*. Write an original sentence for each vocabulary word, using information or examples from the reading in your sentences.

Vocabulary Word	Definition	Original Sentence (2 points each)
Conservation easement	Legal agreement between a landowner and government to permanently set aside environmental resources on private property.	
Incentive	Something that motivates or inspires someone to take a certain action.	

Part 2

Instructions: Refer to *California Connections: Habitat for Humans and Wildlife* and discuss the questions listed below with your group. Take notes and be prepared to share ideas from your discussion with the class. (2 points each)

1. What is the Cosumnes River Preserve?

2. How had wildlife used the land in and near the preserve prior to the arrival of European-American settlers?

3. How did California Indians historically use the land in and near the preserve before settlers arrived?

Cosumnes River Preserve Discussion Guide

Lesson 1 | page 2 of 2

Name: _____

4. How did settlers in the 1800s use the land in and near the preserve?

5. How do people use the land in and near the preserve today?

Part 3

Instructions: Write answers to the following questions. Use the two vocabulary words from this lesson in each answer. (1 point for each vocabulary word used correctly and 2 points for each correct answer.)

1. How are conservation easements used to manage the Cosumnes River Preserve?

2. How do conservation easements offer an incentive to landowners?

3. In addition to landowners, who benefits from conservation easements?

Civic Virtue and the Pursuit of Agriculture

Lesson 2 | page 1 of 2

Name: _____

Civic virtue: The cultivation of behaviors and beliefs that support the common good.

*Agriculture... is our wisest pursuit, because it will in the end
contribute most to real wealth, good morals, and happiness.*

—Thomas Jefferson to George Washington, 1787

Instructions: Answer the following questions.

1. What does the quote mean? Consider what it says and who said it.

2. What do you see in the image? Describe the following:

People and animals:

Landscape:

Action:

Engraving published in *Columbian Magazine*, 1786

Civic Virtue and the Pursuit of Agriculture

Lesson 2 | *page 2 of 2*

Name: _____

3. What natural resources are shown here, and how are they being used?

4. According to the quote and image, why might a person in the Early Republic be a farmer?

Land Use in the Early Republic

Lesson 2 | page 1 of 2

Name: _____

Part 1

Instructions: Read **Three Views on Land Use** (Student Edition, pages 6–8). As you read the article, take notes about how the Shawnee, land speculators and surveyors, and farmers used the land. (3 points each)

Shawnee:

Land Speculators and Surveyors:

Farmers:

Part 2

Instructions: Identify two ecosystem goods and two ecosystem services that benefited each group. (2 points each)

Name: _____

Part 3

Write an original sentence for each vocabulary word that reflects the content or examples from the lesson. (2 points each)

Part 4

Instructions: Make a Prediction based on the information you have gathered, explain which group(s) in the Early Republic had the most to gain from the westward expansion of the United States in the 1780s and why. (10 points)

Map of the Eastern United States

Lesson 3 | page 1 of 2

Name: _____

Part 1

Instructions: Follow instructions provided by your teacher to label the map below. (10 points)

Name: _____

Part 2

Instructions: On Independence Day in 1785, a man named John Gardiner spoke to a crowd in Boston. He said that if the United States managed natural systems and resources properly, the United States could be “a world within ourselves.”

Use what you learned about the Ohio River Valley’s location and natural resources to answer the questions below. (3 points each)

1. What do you think he meant by “a world within ourselves”?

2. Gardiner wanted Americans to be “a world within ourselves.” How might Americans settling in the Ohio River Valley help bring that about?

3. What is civic virtue?

4. How might settling in the Ohio Valley be seen as a civic virtue?

Name: _____

Instructions: Follow the steps below to in order to answer the question “What attracted people of the Early Republic to the Ohio River Valley?”

1. Have one person in your group read each quote aloud. Together identify which category the quote matches. Sort the quote cards into piles by category. Some categories may have only one card.
2. Once you have finished sorting the quote cards, have each person take two piles. Use the information to write a summary for each pile, telling why that category of resource would have attracted settlers. Record your summaries on the chart below.

Category	Summary Statement (1 point each)
Wildlife	
Soil and Agricultural Products	
Natural Vegetation	
Climate	
Waterways	
Minerals	

Lesson 3 | page 2 of 2

3. Share your summaries with your group members. Make sure each group member understands the summary and has a complete chart.
4. On your chart, underline examples of natural resources mentioned in the primary source excerpts you just read. Natural resources are materials, such as forests, water, and energy reserves, supplied by nature and used by humans.
5. Discuss the answer to the following question with your group. Then write your answer. Be prepared to share it with the class.

This image shows a single sheet of white paper with horizontal ruling lines. The lines are evenly spaced and run across the width of the page. There are no margins, text, or other markings on the paper.

The Problem of Distributing Western Lands

Lesson 4 | page 1 of 2

Name: _____

Instructions: The left-hand column of the table below lists five land distribution problems that the U.S. government faced. In the “Problem Summary” column, restate the problem in your own words. To fill in the third column, read **Policies to Address Distribution of Western Lands**, and match the appropriate policy to the problem it addresses. In the next lesson, you will fill in the right-hand column with information about the laws Congress passed to solve the land distribution problems.

Land Distribution Problem	Problem Summary	Policy that Addresses the Problem	Land Ordinance # (Laws that Implement Policies)
1. Decisions about how the territory gained from winning the Revolutionary War could help enrich and strengthen the new country.	<hr/> <hr/> <hr/> <hr/> <hr/>		
2. Decisions about how to distribute land and avoid conflicts from boundary disputes and lawsuits.	<hr/> <hr/> <hr/> <hr/> <hr/>		
3. Concerns about maintaining both republican ideals and law and order in a rapidly expanding country.	<hr/> <hr/> <hr/> <hr/> <hr/>		
4. Concerns about preventing more conflict with the American Indians already living in western lands.	<hr/> <hr/> <hr/> <hr/> <hr/>		

Lesson 4 | page 2 of 2

Name: _____

Land Distribution Problem	Problem Summary	Policy that Addresses the Problem	Land Ordinance # (Laws that Implement Policies)
5. Concerns about maintaining national unity and avoiding East-West division.	<hr/> <hr/> <hr/> <hr/>		

Homework

When Congress considered what to do with western lands, it thought about several groups of people who would be directly affected by its decisions. These groups included land speculators, farmers, American Indians, and Congress itself. Think about what you have learned in previous lessons. Make a list ranking the groups in order from who benefited the most to who benefited the least. Write an explanation for each group's ranking. You may use **Land Use in the Early Republic** and **Three Views on Land Use** to help you complete your answer. (12 points)

[illegible]

Part 1

[illegible]

Instructions: Using your ideas from above, write an essay to the following prompt. Be sure to include at least three possible effects. (10 points)

Predicting Effects on Natural Systems of the Ohio River Valley

Lesson 5 | page 2 of 2

Name: _____

Lined area for student response.

How Expansion Changed the Land in the Ohio River Valley

Lesson 6 | page 1 of 4

Name: _____

Part 1

Instructions: Read the information cards to complete the outline below describing the way settlement under the Land Ordinance of 1785 and the Northwest Ordinance of 1787 influenced the natural systems of the Ohio River Valley.

1. Land was measured and distributed to settlers and land speculators.
 - a. Public Land Survey System (PLSS)

- b. Putting up Fences

2. Land was converted to farms.
 - a. Clearing Land

- b. Growing Crops

How Expansion Changed the Land in the Ohio River Valley

Lesson 6 | page 2 of 4

Name: _____

3. The human population grew.

a. Building Towns

b. Building Roads

4. The human population used the river systems for work and transportation.

a. Traveling by Boat

b. Constructing Mills

c. Constructing Canals

How Expansion Changed the Land in the Ohio River Valley

Name: _____

Part 2

Instructions: Answer the following question, including one example from each of the four main sections of your notes on pages 1 and 2. (12 points)

How did expansion under the land ordinances influence the natural systems of the Ohio River Valley?

How Expansion Changed the Land in the Ohio River Valley

Lesson 6 | page 4 of 4

Name: _____

Lined area for student response.
